Projects

Password Manager/ C++

Sept 2024

- Developed a secure password manager using C++ for storing and managing passwords.
- Features a customizable password generator and clipboard integration for quick use.
- Implemented additional security measures such as auto-logout after inactivity.

Keylogger / Python3

Mar 2024

- Created a Python-based keylogger that efficiently captures and records keystrokes.
- Designed to run discreetly in the background with minimal system resource usage.
- Future improvements include converting it into an executable for persistent functionality

Certificates

Cybersecurity

Apr 2024

- Introduction to Cybersecurity Essentials
- Google Cybersecurity Professional Certificate

Programming

Feb 2024

Programming in C++: A Hands-on Introduction
